(APRIL 2016)

Grade: 82

SKILLS

- Html
- CSS
- C++
- Java
- MySQL
- JavaScript
- Git
- React.js
- Oracle DBMS
- Full Stack Development
- Problem Solving

PROJECTS

ELECTRICITY BILL MANAGEMENT SYSTEM

- As the project lead, I coordinated the development and implementation of the electricity bill management system, ensuring efficient and accurate tracking of billing data.
- By implementing the electricity bill management system, an estimation of 30% reduction in billing errors, resulting in significant cost savings for the company and improved customer satisfaction through faster and more accurate billing processes can be achieved.

STUDENT TERM PLANNER ANDROID APPLICATION

- As the team player, I oversaw the design and implementation of the Student Term Planner Android application, providing students with an intuitive tool to manage their academic schedules and tasks efficiently.
- Through the Student Term Planner Android application, students can increase their productivity by effectively organizing their schedules and tasks, resulting in improved academic performance and time management skills, leading to higher grades and overall student success.

REAL-ESTATE MANAGEMENT SYSTEM

- As a key team member, I contributed to the development and implementation of the Real Estate Management System, streamlining property management processes, and enhancing efficiency for real estate professionals and clients.
- By implementing the Real Estate Management System, the property listing, and management time can be highly reduced, resulting in improved operational efficiency and faster turnaround for real estate transactions, leading to increased client satisfaction and revenue growth.

HOBBIES

- Watching Current affair related videos
- Watching/Playing Football
- Reading Books
